Pay Deal

People and Finance have worked together with SBS to ensure your base pay and local allowances increased in July.

In August we will focus on paying backpay from April to June.

Following this we will continue to work on an extensive project to implement all the related term and conditions changes including an appraisal system linked to pay progression.

Further news updates will be published regularly on [People First](#).

We have been reviewing the structure in finance business partnering, as part of preparing for a Blood service, for a demand income from only 1.2m red cells (albeit with DTS and ODT continuing to grow).

In response, we have created Senior Business Partner (SBP) roles in support of the two ADs.

We are now pleased to announce, that following interview, appointments to the 5 roles have been made: Andrew Wright (DTS); John Spence (M&L); Paul Iliffe (BD) and Neil Colbourne / Belinda Wright (Groups Services).
